## EXPERIENCE

### Freelance Web Developer

London, UK, 2017 - present

Development of websites for various clients.

- Liaised with clients to define project requirements
- Researched and presented appropriate solutions
- Implemented agreed solutions in a timely manner
- Maintained sites to ensure smooth running

### Freelance Interactive Developer

Designmap London, UK, 2007 - 2011

Development of interactive applications for use in public spaces, including the multi-award-winning permanent exhibition on board the Cutty Sark.

- Utilised art direction skills to ensure visual consistency with wider design scheme
- Created visual assets for entire projects
- Incorporated additional technologies to extend Flash capabilities
- Researched and implemented animation optimisations for full screen graphics

**Freelance Graphic Designer****London, UK, 1993 - present**

Print and digital design for publishers, businesses and high profile museum exhibitions.

- Developed brand materials from concept to print
- Presented concepts and liaised with clients throughout process
- Attended exhibition site visits with production contractors and 3D designers
- Collaborated closely with museum curation staff on production of graphics

**Art Director of 20-strong Art department****De Agostini UK London, UK 1993 - 1995**

- Improved Art Department efficiency by implementing a system whereby newly-recruited junior designers produced the various forms and marketing materials required for new project launches. This allowed Art Editors to focus on more creative tasks and had the added benefit of streamlining the recruitment and mentoring process
- Art directed and oversaw the running of many of the company's most successful titles
- Ensured design teams met deadlines and were adequately staffed
- Liaised with management and attended weekly strategy meetings

**EDUCATION****edX certificate in Front End Web Development**

16-week intensive course providing students with the hard and soft skills needed to pursue a career in front-end web development: HTML5, CSS3, Bootstrap, JavaScript ES6, jQuery, React, Node.js, OOP, APIs, Agile, GitHub collaboration, TDD, BDD, app deployment with GitHub pages and Netlify

**HND in Graphic Design: Salford College of Technology**
